

## Installing and Running Demos

Demo descriptions, installation instructions, and MPEG movie clips depicting each demo can be accessed directly from the Demos CD-ROMs. Demos must be installed on your system's hard drive to run.

### Accessing Installation Instructions/Descriptions/Movie Clips

1. Insert the corresponding General and O2 Demos CD-ROM, or the Octane and Octane2 Demos CD-ROM in the drive.
2. Double-click the CD-ROM icon.
3. Double-click on the Web jumper icon available labelled O2\_Demos\_CD\_Start\_Here or Octane\_Demos\_CD\_Start\_Here.

**Note:** General Demos and Octane2 Demos do not have an associated Start\_Here document. The Installation instructions below apply to all demo sets included in the CDs.

### Installing Demos on Your System

1. Insert the CD-ROM.
2. From the Toolchest, choose System > Software Manager.
3. Type **/CDROM/install** in the Available Software field and click the *Lookup* button.
4. Click *Customize Installation* to select from a list of installable demos. Or click *Default Installation* to install a subset of available demos.

### **Running Demos from the Web-based Demo Interface**

1. From the Toolchest, choose Find > Demos.
2. Netscape Navigator opens with the Web-based demo interface.
3. In the left-hand frame of Netscape, under Show, choose All Demos, IRIX Demos, O2 Demos, or Octane Demos to list all demos, General Demos, O2- or Octane-specific demos respectively.

Alternatively, if you are logged in as the user Demos, you can use the Web jumper on the desktop labelled StartDemos. Double-click this icon to start the Web interface.

**Note:** The Web interface will not support Octane2 Demos until later IRIX releases. To run Octane2 demos, use the butterfly or command-line interface.
